

Resume - Su Gao

Overview

Su Gao worked as a professional software engineer for +10 years.

His passion for building a better world and curiosity for next-gen technology fueled the entire journey.

His skill set is rooted back to web frontend development, and has grown to web full-stack in the past 5 years (frontend / backend / CI/CD).

In his free time, Su is a big bike rider. Besides routine small riding sessions in City, He also enjoys some inter-city bike-touring if chance available.

Experience

Su Gao is highly team adaptive. He was a great fit in start-ups, and also playing and seen as a valuable teammate to get well with in bigger Cooperations.

He took over the responsibility and ownership if the role playing should. If the repos / projects are rather a team property, he can also well propose / elaborate / organize voting for ideas proactively, collaboratively.

Since Su breathes web technology. Understanding & Working on web projects has turned to subconsciousness driven skills. React/Typescript/Dockerfile/Vite are the keywords he's using on a daily basis.

The pearl on the crown for his experience: a thorough Understand, skill set and even taste about the test. unit test/integration test/end-to-end test/visual regression test aren't buzz words to show-off, but truly something Su can understand/explain/be comfortable with.
